### 1. China Data Update:

The China Data Center is pleased to release the following new data products and service:

"2013 City Statistical Indicators with GIS Maps". This CD based product offers 2013 city statistical data integrated with administrative boundaries for prefecture and county level cities. All maps are in GIS shape files with English and Chinese. More details can be found at <http://chinadatacenter.org/DataCategory/DataCategoryContent.aspx?type=1&id=2637>.

"Free Mapping Online". This web based tool offers a rich collection of free maps from US and China census data. It also allows users to make US or China maps online with users' data without any GIS tools and experience. See details at <http://spatialdataonline.org>.

### 2. China Data Center Events

#### **The Special Presentation at 2016 Congress of the Humanities and Social Sciences Annual Meeting: "New Data and New Services from the China Data Center"**

Please join us at the following special presentation by the China Data Center at the 2016 Congress of the Humanities and Social Sciences annual meeting in Calgary, Canada.

"New Data and New Services from the China Data Center"

Time: 10:00am to 10:30am, Thursday, June 2, 2016

Site: Café Expo Event Space, University of Calgary, Calgary, Canada

## China Data Center Newsletter, 2016 (2)
