1. China Data Update:

The China Data Center is pleased to release the following new data products:

“2004 China Economic Census Data with Province Maps”. This data product has integrated the 2004 Economic Census data and the provincial GIS maps of all Mainland China. The GIS map is in Shape format. See details at <http://chinadatacenter.org/DataCategory/DataCategoryContent.aspx?type=1&id=3640>.

“2008 China Economic Census Data with Province Maps”. This data product has integrated the 2008 Economic Census data and the provincial GIS maps of all Mainland China. The GIS map is in Shape format. See details at <http://chinadatacenter.org/DataCategory/DataCategoryContent.aspx?type=2&id=2640>.

“2013 China Economic Census Data with Province Maps”. This data product has integrated the 2013 Economic Census data and the provincial GIS maps of all Mainland China. The GIS map is in Shape format. See details at <http://chinadatacenter.org/DataCategory/DataCategoryContent.aspx?type=2&id=2639>.

2. China Data Center Events

CDC webinar: Understanding the Spatial Dynamics of Population and Business with County-level Data

Speaker: Shuming Bao, Director of China Data Center

Date: August 10, 2017 at 1:00PM EDT

The List of Previous CDC Webinars:

- Read Time in Space: Spatio-temporal Analysis with US and China Data
- Spatial Study of Industry with China and US Data

China Data Center Newsletter, 2017 (2)

- An Introduction to China and US Map Library Online
- Spatial Study of Health with China and US Data
- Introduction to Administrative Boundary Maps of China: 1949-2015
- Spatial Data Analysis with China Geo-Explorer
- An Introduction to the Population Census Data of China
- An Introduction to the Economic Census Data of China
- Free Mapping Online for the US and China

The Celebration of CDC's 20-Year Anniversary

Celebration of China Data Center's 20-year anniversary, some CDC's visiting scholars and students met in Shanghai and Beijing on June 30 and July 10, 2017 respectively.

A group of CDC's visiting students and scholars met at Shanghai University of Finance and Economics on June 30, 2017.

The Training Workshop on Data Management and Analytics
Survey Data, Census Data, Spatial Data, Big Data

China Data Center held a training workshop on “Data Management and Analytics” in Ann Arbor from April 17 to 22, 2017. Peter Granda, the Associate Director of ICPSR, gave an introduction to ICPSR. Joelle Abramowitz, the intern director of the Michigan Government Research Data Center, gave an introduction to MGRD. Gina-Qian Cheung, the CTO of SRC, gave an introduction to data collection and processing. Jared Lyle, Asmat Noori, Linda Detterman, Kristing Witkowski, Dieter Burrell, and Juanle Wang talked about data curation, preservation, security, service, promotion and training in the US and China respectively. Shuming Bao and Bing She presented the CDC projects on spatial data integration, spatial intelligent data service, and big data analytics. The workshop offered an excellent opportunity for participants to network, collaborate, and further develop their leadership knowledge and skills.

Workshop on “New Advances on China E-resource Development”

The China Data Center and China Network Knowledge Initiative (CNKI) co-organized a workshop at AAS annual meeting at Sheraton Toronto Center on March 15, 2017. Mr. Hong Xiao, the Vice General Manager of CNKI, gave a presentation on "New Services and New Products". Dr. Shuming Bao gave a presentation on "Recent Advance on China Data Development and Services".

Workshop on “Spatial Study of Economy with the US and China Data” at UAT

Dr. Shuming Bao gave a workshop on "Spatial Study of Economy with the US and China Data" during the 2017 North American Annual Conference of the Chinese Economist Society at the University of Alabama at Tuscaloosa on March 9, 2017.

Workshop on “China and US Spatial Data”

Dr. Shuming Bao gave a workshop on "China and US Spatial Data and Spatial Analysis of Economy and Health" at the Johns Hopkins University Library On March 2, 2017. Mr. Yunshan Ye, the East Asia Librarian at MES Library, coordinated the workshop. Jim Gillispie, Head of Data and GIS Services, gave an "Introduction to Data and GIS Services". The workshop was co-sponsored by the Hopkins Population Center.

3. Upcoming Conference Shows

Please visit our booth and meet the center staffs at the following event:

August 4-7, Academy of Management (AOM), Atlanta, GA

August 19-25, International Federation of Library Associations (IFLA), Wroclaw, Poland
